SIMONE S. DESCO

WEB DEVELOPER

Experienced self-taught React developer with demonstrable experience, proficient in frameworks like Next.js and design libraries such as Tailwind CSS. With a solid foundation in object-oriented programming and a keen understanding of web development technologies including HTML and CSS, I bring a proactive approach and a common-sense mindset to every project. Proficient in code control systems like Git, I thrive in collaborative environments, valuing teamwork, continuous learning, and mutual respect among team members.

EXPERIENCE

FREELANCE WEB DEVELOPER

2020 - Present
- Designed custom websites and applications for a diverse range of clients, spanning from local shops, musicians to individual portfolio websites.
- Built the logic for apps adapting to customer's request
- Created Figma designs from customers ideas and then working applications/ websites
- Constant Updates on running projects

While I lack a degree, I possess valuable commercial experience and a keen attention to detail. I have hands-on experience with customers and have thrived in agile environments, having been involved in numerous significant projects over the years, ranging from gaming development to mobile apps.

I'm currently looking for new opportunities, my inbox is always open. Whether you have a question or just want to say hi, I'll try my best to get back to you!
